

Award winning and recommended by dental professionals

Clinisept+ Mouthwash is endorsed and recommended by many of the UK's leading dentists and orthodontists.

“Clinisept+ Mouthwash has infinite benefits over chlorhexidine containing mouthwashes. It is safer to use, it doesn't stain teeth and leaves your mouth feeling fresh.”

Dr. Neil Millington

MSc BChD MGDS RCS (Eng)
Specialist in Prosthodontics

“I am very impressed: Clinisept+ Mouthwash is keeping my tongue clean and my mouth is much healthier.”

Lyn Norman
Staffordshire

“Just 10 days after starting to use Clinisept+ Mouthwash my mouth is free of all soreness and has no ulcers for the first time in years.”

Stephen Laing
Norfolk

Clinisept+ Mouthwash

Suitable for those with normal or sensitive teeth, and implants.

Clinisept+ Mouthwash

Effective and gentle

Clinisept+ Mouthwash is an oral cleanser and hygienic rinse that delivers professional levels of antimicrobial protection against the harmful bacteria that cause gum disease and tooth decay, but without stinging or causing irritation.

The technology behind Clinisept+ Mouthwash represents a step change in oral hygiene: unlike traditional mouthwash chemistries, it provides an optimum combination of cleansing efficacy with complete oral compatibility – making it ideal for those with sensitive teeth or gums.

- Effective cleansing and antimicrobial protection (EN1040:2005, EN1276:2019, EN14476:2013 +A1:2015)
- Contains no chlorhexidine, alcohol, colouring or flavouring
- Non-irritant to teeth or gums
- Causes no staining
- Neutral pH 7.0
- Non-cytotoxic and hypo-allergenic

Clinisept+ Mouthwash soothes and calms sore mouths and gums. It is ideal for use following dental procedures or as a daily rinse to keep the mouth in healthy condition.

A Game Changer in Oral Hygiene

Revolutionary

Cleans, calms and soothes sensitive teeth, gums and mouths, without using harsh chemicals such as chlorhexidine or hydrogen peroxide.

Effective Cleansing

Superior oral cleansing and deodorising combined with highly effective antimicrobial protection leaves the mouth feeling clean and healthy.

Gentle

Clinisept+ Mouthwash has a neutral pH, is non-cytotoxic and doesn't cause stinging, burning or irritation.

How to Use Clinisept+ Mouthwash

Use Clinisept+ Mouthwash once or twice daily for regular oral hygiene.

Rinse 10-15 ml of Clinisept+ Mouthwash around mouth, teeth and gums thoroughly for 30 seconds and then spit out.

If using at night-time, use before brushing teeth so toothpaste fluoride is not rinsed away. Do not swallow and do not rinse with water.

Not recommended for and keep out of reach of children.

Cautions

Always follow the instructions carefully. For single customer use only. Do not dilute, swallow or take from the bottle. Always use dosage cup.

Use within 3 months of opening.

Do not store in temperatures exceeding 28°C. Do not decant from this bottle.
